

GREETINGS-- Lizards and guests on this GORDON DONALD TROPHY DAY. (See later).

To-day we compete for the nearest the pin on the 8th and the 10th.

Also the lowest number of strokes on the putting greens.

The Gordon Donald Trophy will be played on Stableford points. It is strongly denied that Gordon has had considerable doubts on what to give as a trophy and that he has finally decided that he will give Butch as the prize.

However no smoke without fire!

So all you Lizards you beware
Don't take chances, you take care
If you try to win to-day
For all you know perhaps you may
Win Trophy you so avidly sought
And wind up in the Bigamy Court.---
But handicapper Les he's so cute
He's arranged handicaps so beaut
That Gordon must win game to-day
And win Butch back, Hip Hip Hooray.

MUTTERINGS FROM LES GARLICK-

"I've learnt the most about human nature since I've been Captain Handicapper.

The number of drinks I've been offered is astounding-- I've enjoyed every one of them."

LIZARDS LADIES NIGHT--Saturday 7th October.

This is the mostest must.

Ladies will be garlanded with the most costliest and atrocious orchids that Des McGuire can find.

Tickets are \$3.00 per head, which includes lovely grub and drinks. BE WITH IT. Guests of Lizards are welcome.

CATERERS' CORNER. Caterer Peter Allen is tired of complaints about grub provided by him. He would like constructive ideas.

It must be noted that suggestions of Oysters, Prawns and Lobster would put up the exorbitant fee of \$2.50 to the more exorbitant \$3.50, so be reasonable.

CAPTAIN-HANDICAPPER'S REPORT.

In response to pleas, pitiful tales and threats of violence, the Handicapper has considered increasing all handicaps by 10, which everyone seems to consider their just dues. As this would involve the purchase of a Computer for final reckoning of some scores, the idea has been abandoned. (You'll keep C.H.!)

Don't forget to fill in all scores, as a losing card can still benefit you on the Eclectic Board.

Interest in this comp can benefit your golf.

For the benefit of clottish dolts who don't know how it is worked, here it is--

The scores from your initial card of the season are entered on the board hole by hole.

Each subsequent card returned during the season is compared with the board hole by hole and where an improved hole has been recorded, it takes the place of the score already there, thus reducing the total.

At the end of the season the final score is calculated by using $2/3$ of your current handicap.

EDITORS' NOTE. I'll guarantee that the majority of Lizards are still clottish dolts after this explanation.

What is the use of giving Bob Humphries an extra stroke on handicap. He doesn't take it ! You had a stroke on the 11th last month, Bob.

The consistency of P.E. Try is amazing, for instance,

July Handicap.	36	Gross	103	Nett	67	S/Points	34
Aug. "	36	"	103	"	67	"	34
Sept.	36	"	?	"	?	"	?
