

Greetings Lizards and Lizards on this fine day.

It is understood that amongst our guests will be a number of the D Y Garden Club, sponsored by Lance Try.

It is believed that the Garden Club was the forerunner to the equally peculiar Flower People. Most of us live for the day when we see Lance prancing around with a daffodil stuck out of each ear-hole!

Others of our welcome guests are staff members of the Civic, including Geoff Meyers, who it is believed, had a violent argument with Tom Beer at Manly, as to who was the better golfer. I wonder who had to buy the Lottery ticket, as though I didn't know.

Even visitors from such outlandish places such as Yorkshire are welcome.

Today's Event. This is the event of the year to be decided on Stableford. It is for the Hon Ed's trophy!

In case any of you ignorant clots don't know, Hon stands for Honourable.

The winner will sort of get a double award, because not only will he receive the magnificent prize donated, bought & paid for by magnanimous Jim, but he will also get numerous mentions in next month's bulletin.

In case the winner is the shy type, he needn't worry, because although his name is mentioned often, to soften any perturbations, it is the Hon Ed's avowed intentions to quote equally, but often in Capitals, the handsome donor's name.

Nearest the Pins. Now nobody can say that our Capt. Handicapper hasn't got a mind of his own, He has, The N the P's will be the 1st & 17th.

Last Month's Results. The Jock Ross & Alister Campbell Trophy, which was a secret pairs 18 holes.

Winners. A. Levy & K. Lawler.

Lizards. G. Russell 43 off 26
A. Levy 42 off 15
R. Griffith 38 off 9

Now it is known that in future George will be off 18, but Arthur should also be docked down to 9, also let's hope, rather, that Bob's handicap will be reduced to 7! forlornly.

Visitors was won by G. Meyers with 41 off 10.

Second was young Michael Hennessy with 38 off 22.

Nearest the Pins 1st Chataway Hathaway.
17th G. Meyers.

The Bradman was won purely on merit by G. Quinlan with 24 off 18.

SPECIAL NOTICE.

Monthly Prizes.

Lizards. Comment has been received about the stereotype nature of our monthly prizes. For some time, Glasses, Ashtrays, & Cuff Links, all bearing a Lizards motif, have been used, and this lack of variation has been questioned.

A recommendation has been made to your committee for discussion at the annual general meeting, that the present method of prize distribution be discontinued, and that the following system, the salient points of which are listed hereunder, be adopted for the ensuing year.

1. That the club discontinue the purchase of these monthly trophies.

2. That each member donates one trophy per annum.
3. That the member will be allocated a month (by Ballot) for his particular donation.
4. That the names of all donors will, firstly be printed against their respective months on the fixture card and secondly be notified one month prior to their particular donation.
5. That all prizes be of approximately \$3 in value.
6. That the club would still be responsible for the purchase of visitors and K/Pin prizes, along with special trophies such as Epileptic, Points Score, & Knockout events.

Gentlemen.

We have sufficient members to provide a 1st, 2nd, & 3rd prize each month (the winner having 1st pick naturally). The cost variation would be negligible, and the greater variety of take home prizes would be much more acceptable to the average member.

This particular system has been, and still is operating successfully with many large social clubs, and given your full endorsement, could be operated just as equitably within our club.

You will notice that this matter is to be discussed at the A.G.M. in July.

The reason for such advance publicity is to enable you slow & dim witted mob to talk & think about it.

Comment on the Manly Day.

Who was it that did his block,
And mishit his tee shots at half cock.
Who was ham fisted like a block of Devon,
And went round in a hundred & seven.
So don't you be such a bloody fool,
You must keep calm and play it cool.
You'll miss the ball if your head you lifteth,
That's my advice to you Mr. Griffith.

SPECIAL SUPPLEMENT TO "FLAT OUT LIKE"

Have you noticed that a certain member of the Lizards has changed his personality.

Twelve months ago he arrived each month to play golf with about 3 clubs, sneakers, a golf bag you would not care to be associated with and an uncanny ability to swing one of his clubs at his dilapidated ball and completely miss it ninety five percent of the time.

The same little oriental git now arrives with a bag bigger than himself, a chromium plated buggy, sand wedge, golf umbrella, boots with spikes, tailor made golf slacks and more bloody confidence than Gary Player.

Once a month the same little bleeder writes nasty things about Sober and industrious Lizards in a publication which, through his association with it, is gradually reducing to such a level that there is only one function that the paper can be reasonably used for.

The President and the Baggage man who have been subjected to scurrilous slander in this publication have insisted (by virtue of their office) in the above being published, and publicly and emphatically state that if this little hound continues with this sort of editing both he and his bag, boots with spikes, buggy, umbrella and tailor made slacks will be forcibly rammed into the 4" hole on the 18th green and the flag stick rammed in on top of him in an appropriate place.

No his name is not Jimmy Howe, you ask Preso and Baggo and they will tell you his name but you will need a spare twenty minutes to listen to an adjectival description.
