

Greetings to Lizards and Visitors and to those who don't put into the Insurance tin.

To-day promises to be one of those "beautiful" days which are normally enjoyed by the Lizards.

The day will be enhanced by the absence of a Lizard due to commitments at another golf course further North.

The event to-day is the Paul Hennessy-Les Atkins Trophy--it consists of a Canadian Foursome.

Now when I asked the President whether it was to be stroke play or stableford, he looked rather vacant and said, hesitantly, Yes----I decided to make the rules myself.

You and your partner will each make a tee shot--you will then decide between you which ball you will play. If you decide that your partners' ball is to be played then you will play the next shot, or vice versa. Your partner and yourself will then play alternate shots of the same ball until it is holed.

You then score by normal stableford points. Your combined handicap is the total handicap of yourself and your partner, divided by two. If for example the average handicap of you and your partner is 20 and a half, then your combined handicap will be the next highest i.e., 21. If you don't understand this lucid explanation, you needn't worry because your score will be corrected by an even more stupid nit, the Captain Handicapper.

The monthly donors for the day will be Royle Jenkin and Sonny West. Nothing will be said about these two, because they are both ugly looking customers.

Have you ever seen a picture of that stone statue of "The Thinker" stony elbow on stony knee, stony fist on stony brow. That's the picture of Griffio when he states that it's the 4th or 18th. No inference is to be drawn that I consider his brain is calcified.

LAST MONTH'S RESULTS.

WINKER. Gordon Donald--40 off 8. This was a most popular and well deserved win for Gordon, after having repeatedly nudged the winner on a number of occasions. We all hope that Gordon does it time and time again. We also hope that that wise clever C.H. of ours handicaps that scheming devising individual down to about 3, that what he deserves.

SECOND. Wal Reynolds Snr. who I'm sorry to hear is or has been having head trouble--we all hope it clears up Wally. Wal got 39 off

THIRD. Jack Ewers - 38 off 15. Jack as you know is a new Lizard. He is going about bragging how he's going to do us all down when he gets to know the course. If only we had a decent C.H. who would smartly bring such a boaster down to earth.

VISITORS. 1st. J. Thompson. 48 off 36.
2nd. Paul Gaze. 39 off 20.

NEAR THE PIN. 1st. TED Holliday.
10th. Gordon Donald.

Both these two should be barred--they are coming it too often.

OF INTEREST.

1. Your committee has asked that it be brought to your notice that some of you are not washing your glasses after use. Please do so. It has been decided to provide hot water with detergent with the hope that the decent few will put their dirty knives and forks in.
2. Because of the success of last years Christmas meeting, it was decided to ask every member and their guests to bring a small prize to the value of about \$1.00.

The event is to be called--bring a prize-win a prize.

3. Preso and wife looked for house recently
Found one which suited most decently.
When they moved in found three starving chook
Which previous tenants had unkindly forsook.
Now Eckie-mcSeptic being all heart
Dug down deep and did his part
By buying ten cents worth of decent food
For his newly acquired hungry brood
Kind hearted Eckie gladly did pay,
Secretly hoping for eggs every day.
But think of the anguish, the terrible shock
When he finds out every chok is a cock.
He'll rend the heavens with mighty roar
You bloody chickens are making me poor,
Off with your heads and into the pot
That's the end of you hungry lot.

Ed.
