

There are many types within the Lizard species - big ones, little ones, fat ones, skinny ones; quiet ones, frenetic ones etc. etc. etc. That is another reason the word is appropriate for a mixed up group like ours. It might even explain the differing individual reactions to club activities - like not turning up to Ladies Night.

Fortunately, there is a sound corps of members who turned up on Friday, May 10th. to make our Ladies Night a suitably happy occasion. The only dampening effect was the empty seats at table hopefully set for expected members. Even apologies would have been welcome.

So let's get this straight. We have an ANNUAL GENERAL MEETING coming up on TUESDAY, June 25th. to be held in the Civic Club. You will be told again next month but please don't use the time polishing up excuses - this is obviously the important meeting of the year.

News from foreign parts: message sticks have been received from that daring duo, Treharne and Howe, indicating they are managing to enjoy themselves despite the strange local customs. I hear they are complaining about lack of news at home and hope that when they receive their "Flat Out Like" they will not be too struck with home sickness - couldn't stand them running home too soon.

Geoff. Quinlan, one of our overseas members sighted in London, is believed to be operating out of Aberdeen these days. The places some people will go for a dollar !

POT HUNTERS REPORT. April meeting - 26 Lizards, 15 visitors - played in fine weather, boggy underfoot. The annual match against the Garden Club - won (despite the efforts of some burgling visitors) by us Lizards - 585 points to 564. So you can relax for another year.

Other successful pirates...

1. The Harry Tipper Trophy .. K. Cook.
2. The Osborne/Laidlaw Trophy - played over secret nine by secret pairs won by the unbeatable combination, Gordon Donald and Royle Jenkin.
3. Lizards Competition. Don Goozee (The Goose ?) flew in, followed by Royle Jenkin (again?)
4. Visitors Competition. K. Cook (again already) followed by R. Bowman.

Nearest the Pins. 4th Hole.. A. Meddings.
17th Hole. G. Donald.
Long Drive. K. Cook (how about that?)

So much for the triers.

For aspiring golfers.....

MAY COMPETITION. The President's Trophy.
Nearest the Pins .. 1st and 13th holes.
Longest Drive.. NONE !

instead C/H. Porter has invented a two shot system for the second hole. The prize for this event will go to the bloke whose second shot finishes nearest the pin. Ball does not have to finish on the green and could be short, through the green - anywhere within bounds.

JUNE MATCH. Traditional opponents - St. Augustines.

JUNE 4th. (TUESDAY). Civic Club Golf Day at beautiful down down CROMER. Check for details with

Paul Hennessy or Bill Smith.

Two final sobering thoughts:- applications still open for position of temporary, probationary unpaid "King of the Airies".

Reminder to all Lizards. Your elected office bearers, baggage man, plant engineer etc. while accepting responsibility for organising your monthly Golf Day should not be regarded as the only knuckleheads with the strength, time or knowledge necessary to construct or demolish our temporary club house. This club lives on co-operation - so how about volunteers for carrying and fixing chairs, hot plate, tarpaulin etc. every month?

CAPTAIN/HANDICAPPERS HONOURS LIST (Handicaps to you).

W. Alexander	36	P. Hennessy	22.
N. Bentley	32	J. Howe.	38.
