"FLAT OUT LIKE" ---

Today's Competition is a Canadian Foursomes and is the Les Atkins and Paul Hennessy day.

Nearest the Pins are anybody's guess and will be decided today by the bloody minded Captain Handicapper who waits until I go to print and then changes the Holes (ask Sweet William Smith). I'll take a chance and say that there is a prize for nearest the pin on the second hole with the second shot. Anyone hitting the green with his tee shot will probably cause a diabolical argument, so don't do it.

LIZARDS VERSUS CIVIC C.C.

Lizards 279 Points - Civic C.C. 306 Points
It is to be noted (and used against him in the future) that, when receiving the shield, the C.C.C. President, did not wish to be mercenary (not much) but insisted that the Lizards pay for the engraving.
It is also noted that the C.C.C. had a couple of "ring-ins" including the Robbin Pom who had 48 points out of the 306.

PERSONAL PARS

1. Thirty seconds after Bill Alexander issued his quiet victory scream the following happened.
 - A. The Balgowlah Fire Brigade turned out.
 - B. Eighteen Hundred bathers left the beaches.
 - C. A little old lady in Frenchs Forest died from a heart attack.
 - D. Your Editor went Mutt and Jeff, and still is.
 - E. Col Jellis handed in his Resignation.

PERSONAL PARS- Continued

2. Did you cop Lance Try sitting half asleep with a 7oz (yes a seven) glass in front of him during the meeting. It must be the Whitlam Government has finally got to him.
3. Toby Webb trying to pay his dues with a Bank Card.
4. Sir Gordon Donald knocking him back with a few choice words.
5. Billy Shean has found that a couple of his personal things have disappeared following his falsetto voice effort with Harry Tipper.
Harry is claiming a dry cleaning bill from Billy.
6. Did you get Billy Eggs trying to make himself heard above Bill Alexander who was supposed to keep the meeting quiet. Bill says noisy will get the job again - at the June Meeting in 1987.
7. Thought it was nice of Jack Ewers to volunteer to have the course improved by approaching the Council.
8. Did you notice that the caterer is now an administration type and has 3 cooks louses as assistants under training, namely Norm Bentley, Don Goozee and Harry the Tip all wearing apprentice aprons.too.
9. Fred Porter drove the 18th Green then he could not find his ball and swears that the bloke putting out on the green had picked it up.
Wouldn't you if you got a smack in the Khyber with a golf ball without any warning shout.

LADIES NIGHT NOTES

Ladies Night at the Civic Club once again proved a great success and we are very fortunate in having the complete support of the Civic Club who have apparently, judging by President Roy Cornells address, given up their bid for a takeover of the Lizards and now respect our complete independence.

As usual Faux Pas were made, Lori Laidlaw suggested that we have a Ladies Golf Day on one of the Lizard Meeting days. He must be out of his tiny mind and if the President does not have him up in front of todays Meeting and tried for treason they should both be fined handsomely.

Billy T downed so much grog that the heel of his shoe became saturated and fell off.

Margaret Lobb finished up wearing it for a corsage.

Anyhow, as the saying goes, it was a very good night with several Lizards showing signs of wear and tear the following day including
