Welcome to CAPTAIN-HANDICAPPER AND ASSISTANT'S DAY.

and returning to Avalon for the day.

---------	--------------	------------------

HARRY THURSTON was presented with the back-dated
Epps-Hansen Trophy. He was more than pleased
with the bottle of 'White Horse' but could not remember
having won the event.

RAY HILTON, hard working Assistant Crumpier,

scored ten points out of ten last month by 'knocking-up' two 8 foot stools for Lizard use. Ray was patted on the back, shaken by the hand, given a 'downer' and told to bring two more next month.

PAUL HENNESSY Jnr., won the day, backed himself on the Tote, was given the job of collecting the fines during the meeting, lost the tin and was fined himself - there is never a dull moment with the Hennessys - November is their month so we had better watch ourselves.

LEN LE MON and IAN HAMPSON have put the putting competition on the map by providing more and better dividends. Every man and even the local black and white sheep dog were in it last month. Harry Thurstan took the honours. Ken ^{BOND} Bond walked off with second prize. Be in it - with odds like that to beat you can't lose.
