

LIZARDS

FLAT OUT LIKE

WELCOME to PLUMBER's DAY - produced and directed by Alan Lewis. Alan is out of the bibcock stage and more into flashing these days. He invented Sophie and, with some coercion, the subsequent Sophie Trophy. Sophie is getting a bit long in the tooth these days and has probably been conscripted to ride in the back of the truck, during school holidays, for the purpose of repelling budding bullion dealers - even Al's clubs have a \$9 scrap value. It's nice to see him around the Course - still ripping Skins from the least wary marsupial golfers, or anyone who carries their money in a pouch. He blazed the way to Lizards entering the computer way of life by telling his astute spouse of his dilemma in endeavouring to work out the Club's Eclectic machinations on the back cover of his Hardware and General order book. She threw the disused edge of one of her silicon chips into gear and our complicated results came out of the separator in black and ink, to 4 decimal places. Alan was knighted - for his wife's efforts - and went on to become President. It shows there is a good woman behind every lead - er.

The COPEMAN AND THURSTON DAY produced the following hotchpotch :-

First Lizards and DONOR's Trophy :

	:	Dave Gilchrist	43 Points off 15 Handicap
Second Lizards	:	Bill Epps L.M.	41 Points off 17 Handicap
First Visitors	:	Geoff Warren	45 Points off 30 Handicap

Nearest the Pins -

1st : Len Le Mon

9th : Geoff Warren
**** HOLE IN ONE ****

Longest Drives -

11th :	Mark MacMillan	- handicaps of under 20
15th :	Paul Newton	- handicaps of 20 and over

Putting : Andy Warner 26 Putts

Bradman : Henri Venturini 16 Points off 20 Handicap

GEOFF WARREN, visitor of doubtful repute and not terribly well up with "What's this nearest the pin stuff", was told by some well meaning goose that the nearer the pin the ball was propelled, the greater the prize - so to erase any doubt in our surveying skill he HOLES IN ONE ! WOT A TART !! Fortunately for what's-his-name, he was insured against such an occurrence. He could wend his way back this month to bask in his extemporary glory and request that his ball be mounted - he will be lucky if he doesn't have his mount gelded.

VICE PRESIDENTS are not renowned for precipitating proliferous perspiration but DAVE GILCHRIST came out of the sawdust to amass 43 points and take the trophy. He may have eclipsed this feat by arranging the printing of the end of year raffle tickets - and remembering to bring them for distribution. If this is the case, take a book or two for return at the Christmas event, to help raise the Lizard's all ordinary index from under the Stock Exchange lino. David has also been assisting the cause by providing an assortment of unheralded trophies - very commendable for a V.P.

Not to be outdone CATCH, our wandering minstrel cum omnibus pilot, came up with a quantity of AAT KINGS fold-up travel bags. It was rumoured that these were made of the leftover clippings from a Jewish maternity hospital. When you stroke these wonderful little bags they turn into big suitcases.

PRESIDENT PAT PURCELL called on ANDY WARNER to welcome the visitors. Andy's one word "Welcome" speech was followed by visitor JIM SMALL's one liner "Thank you". Unfortunately the time saved by these verbal economists was squandered by others on a mishmash of miscellaneous drivel.

PAT, in his endless quest to publicize the Lizards, has gained a competitor's seat on the Tuesday December First's edition of Tony Barber's Sale of the Century, and intends wearing his eye catching Lizards badge. It seems a safe bet the Club will rate a mention on the nationwide show. Good luck with the cars - not to mention that other stuff.

CONGRATULATIONS and Best Wishes to LEN LE MON, one of the few members playing off a handicap of 9, on his attainment of a very fit 3 score and 10. He has a few more days to wait before he is permitted to open the presents. He might celebrate by taking GWEN to a Club - and waste their lunch money on the pokies.

LIFE MEMBER BILL SHEEHAN's erstwhile son-in-law, who drives a Porsche and flits around more countries in a season than the codling moth, fluttered off to Scotland recently and gathered a few souvenirs from the Royal and Ancient - which he bestowed on his golfing father-in-law. Bill has but one son-in-law, however Garry has become his favourite such relative. The relationship has blossomed to the extent that, henceforth, Garry is permitted to sit in Bill's presence. Here's hoping there were no plaid knickerbockers in the giftbox.

STOP PRESS - NIFTY is a grandparent, again. On this occasion the father is a Lizard member - guess who. The best of British to the new born and all concerned.

The CAPTAIN/HANDICAPPER has been savagely scintillating in scything a significant sum from some of the Members' handicaps thus :-

Minus 2	- Dave Gilchrist
	- Bill Epps L.M.
Minus 1	- Nev Meredith
	- Len Le Mon
Plus 1	- Ken Bond

Nearest the pins are the 13th and 17th holes for all players.

There will be two longest drives : 5th hole for players with handicaps of under 20 and the 6th hole for players with handicaps 20 and over.

LOTTERY TICKETS will be available in the shed after the game. The CAPTAIN/HANDICAPPER has a few lottery tickets that have not been collected. Please check to see if yours is one of them - after all you may have won a prize!

Good Golfing
